Fellow Entrepreneurs,

Please let me introduce myself, my name is Andreas Kirchberger and I make an ***extraordinary living*** trading on the forex market. I used to work for Deutsche Bank as a forex advisor but I made the decision to quit because one question kept nagging me and even haunted me in my dreams: Why should I work and sweat for 8 hours a day making other people rich by researching reports and monitoring market movements?

That`s why 2 colleagues and I developed the Forex Killer, which is the only working forex signal generator on the market today. I`ve already made hundreds of thousands of dollars. **Here is a screenshot of my swiss bank account**. Would you believe that all I did to generate this sum of money was ***spend a few MINUTES a day adjusting some easy BUY & SELL ORDERS???***

"WOW! I`ve bought alot

.... MLM, AFFILATE BS AND GET RICH QUICK SCHEMES SUCK ...

I'm not talking about hours of hustles or the MLM & Affiliate Dreck that people get tricked into these days. I'm talking about a ***proven money making method*** where you generate all of the cash yourself by trading your own money. You are totally in charge of what happens. This is a PROVEN path to true financial independence.

of high cost forex systems and signals. Your software blows the competition out of the water! You could easily charge triple the price. As a matter of fact i never came across such an easy to setup, easy to apply and most important effective working system!"

"I consider myself an experienced trader. I professionally manage FX accounts for various capital groups and write a daily FX forecast. I have used your software and found it to be very useful, as I am certain it has made me a better trader"

George Welch

"Being an experienced trader it`s hard to impress me, you did! I mostly trade EUR/USD and USD/CHF Pairs. The forex killer signals are not only easy to use but very profitable, thank you."

DID YOU KNOW THAT:

50% of the people that trade forex lose money, even in the long run? For many people, trading equals gambling. Here is where the problem is, to make money CONSISTENTLY and increase your bank account, you need a ***PROVEN AUTO PILOT NO-GUESSWORK SYSTEM***. It is even better to have a proven software that does the thinking for you and therefore eliminates the **"human error"** factor.

What we came up with is unlike anything else available on the Internet today.

Why would you pay hundreds of dollars in monthly fees to companies for forex trading signals when you can just create them yourself with our forex advanced trading signal system?

Why would you spend the whole day waiting for signals that never come in time?

Why would you pay for signals which often do not bring any profits? They only bring losses!

Why should you follow complicated trading patterns and stress yourself with charts and analytical software when you could simply generate comprehensive and profitable signals within minutes?

Our proprietary ***FOREX KILLER*** software will relieve you of all these problems and earn you an extraordinary income.

- A: Absolutely! The Forex Killer software was created for beginners as well as experienced traders. With the Forex Killer manual, detailed "Forex Learning Book" and "Crush course" beginners will learn everything they need to know about the forex market to start trading within the next hours! Forex Killer is successfully used by newbies with no Forex experience at all!

- **Q: I pay hundreds of dollars as a monthly fee to companies for forex trading signals. Does Forex Killer have monthly subscribtion fees?**
- A: No! You purchase software to generate your own signals at home! No more monthly fees! You can finally create signals by yourself with your own market analyzing software.
- **Q: How much money do I need to start trading?**

- A: Depending on your broker rules, you can start trading with an amount as low as $500. Remember that starting out with low trading capital may put you at disadvantage because you will only be able to trade forex in small share lot sizes. We recommend to start with capital of $2,000-5,000 USD or train on a Demo account till you are satisfied with the performance.

- **Q: Is it hard to learn and implement your trading system Forex Killer?**

- A: **No!** Most people that purchase Forex Killer start trading the next day after they install it. Some even ***within minutes***. We provide exact detailed instructions how to start.

- **Q: Does the strategy cover currency pairs other than EUR/USD?**

- A: The strategy has been designed to be useful for trading any major currency pair such as EUR/USD, GBP/USD, USD/JPY, USD/CHF etc... The examples are mostly EUR/USD, however our forex strategy can be easily applied to any other currency pair.

- **Q: Can I use the signals for intraday trading?**

- A: Yes. You can trade different timeframes: 5M, 15M, 30M and 1H for intraday trading and 4H, 1D, 1W for long term daily trading.

- **Q: Where can I get the price data to feed the program?**

- A: You can feed the Forex Killer with data from any broker's platform, like Metatrader for free. We also provide a list of **recommended brokers**.

- **Q: What kind of Internet connection and computer hardware do I need?**

- A: The kind of Internet connection that you should use depends greatly upon your trading style. Active day trading requires high bandwidth, high performance and reliable Internet connection. Although it is possible to successfully day trade using a regular phone line connection, we would recommend you to use either Cable or DSL Internet service if it is available in your area.

- **Q: Do you provide customer support?**

- A: Sure. We provide friendly customer support. Feel free to contact us any time you have questions or problems. We'll do our best to help you and answer your questions as soon as possible. Visit our **Forex Killer Help Center**
